

TK-HOCKEY.COM
2017

TK Hockey defines technology, innovation and passion, it pushes the boundaries of possibility, forever in pursuit of perfection.

Passion and performance defines us, design and innovation challenges us.

Standing still is not an option.

This is TK.

TK 2017
TOTAL HOCKEY, TOTAL TK.

SCX 1.

Total One – Performance. Redefined.

Our Total One series redefines what performance sticks should be. The pinnacle of technology advancement and research. They feature the highest quality materials and are combined with the best production techniques to create sticks that redefine what's possible and produce the very best performance.

We have utilised biaxial braiding technology to enable automated, high quality production of continuous fibre composite components.

This mechanical interlocking results in high energy impact absorption properties and a stronger, tougher, more flexible alternative to traditional woven composites.
