TKTECH

Wherever your destination we believe your bag shouldn't just carry your hockey gear, it should protect it and look good doing so. Our bags are designed from a players' perspective to ensure that they work exactly as you need them, whether you're heading to training or heading to a cup final, we have a range of bags to accommodate everything you need.

TK bags are equipped with a range of features to make your life easy and ensure you can carry all your gear in complete comfort.

Our progressive G-CELL cushioning and AIR VENT mesh cooling system will help to dramatically reduce load discomfort while closed cell foam zones deliver impact resistance for delicate items.

FOR PLAYERS

TK GUARD
Dense closed cell foam protective small items inside pockets.

MEDIA ZONE
Includes personal media neatly stying and features.

AQUA FIBER
It's advanced Water-Repellent Technology to protect your valuable contents.

TK PROTEX
No access for abuse, but this extra reinforcement helps protect the base of your bag.

G-CELL
Closed Cell Cushioning. Specially configured cushioned foam inserts to increase your comfort on the move.

AIR VENT
Air Vent Technology. Specially arranged ventilation zones designed to keep you cool on the move.

HYDRATION
Quick Access Liquid Replenishment.

TK Aqua Fiber storm guard fabric will keep your items dry in a downpour. Our quick access Hydration pockets are designed to stow liquid safely and innovatively. Finally TK PROTEX anti-abrasion base fabric will work hard to handle everything you can throw at it.

LSX 1.1

Forged in the field the LSX 1.1 Stick Bag represents the culmination of years of design and testing on and off the pitch. Players expect more from their gear, here at TK we push the boundaries to deliver it.
